## Mobilicity

## CiSTUP's 4<sup>TH</sup> FOUNDATION DAY EVENT

# "Mobilicity 2013: FORUM FOR SUSTAINABLE BENGALURU"

On Wednesday, 06 March 2013 (09:30 am to 17:30 pm),

Venue: CiSTUP Conference Hall, Indian Institute of Science, SID Complex, Bengaluru

**N**amma Bengaluru is facing significant urbanism challenge as never before effecting the environment, people and the economy as a whole. Crippling city infrastructure along with unbridled growth of vehicles is a weak link to meet the needs of the residents and businesses. Today, the herculean peakhour commute on our congested roads and highways, gridlocked urban streets, unreliable and inconvenient public transportation system, in other words over crowded solo public

bus transportation, is increasingly becoming a pain for mobility. In addition, increased Air Pollution, lack of affordable housing, spiraling land prices led to urban sprawl, lack of sufficient local financial resources, etc., are leading to the economic disruption of our beloved Bengaluru. These issues are calling for an urgent need for efforts, actions and to make Namma Bengaluru Livable and

Sustain!!

In this connection, the Center for infrastructure, sustainable transportation and urban planning (CiSTUP) of Indian Institute of Science (IISc) jointly with Directorate of Urban Land Transport (DULT) and Praja Raag launching a "**Mobilicity 2013: Forum for Sustainable Bengaluru**" on 16th February 2013 as part of its 4<sup>th</sup> Foundation Day event inviting representation from all Bengaluru Stakeholders. This forum focus on the following four key themes:

- **Moving Bengaluru**
- **Greener Bengaluru**
- **Cleaner Bengaluru**
- **Bengaluru Urban Sprawl**

Together to help create Sustainable Bengaluru! To facilitate discussions and ideas a pre-online and on ground campaign surveys will be conducted which will form a food for thought for the event. At the end, these deliberations and ideas will be compiled and submitted to the respective stakeholders for needed action as an outcome of this event. Please join to voice your views, solution ideas, and contribution to make the event a success.
