Sub: Request for erection of Steel Girders / Pillars across 9th & 11th Cross - School Zone Reg:

Respected Sir,

With regard to the above, we wish to bring to your kind notice that there is enormous movement of Heavy Vehicles of all categories on 9th and 11th cross in the Colony. Since the roads being narrow which can hardly accommodate 2 vehicles pass through, there is frequent traffic congestion causing untold inconvenience to the residents/pedestrians of the colony to put up with the nuisance. Besides this, the heavy vehicles carrying building materials have not only damaged the roads but also the underground water supply pipes and drainage pipes resulting in poor supply of drinking water and frequent clogging of drainage lines.

This has become a great concern for the colony. Aged ladies and children face a horrid time while crossing the roads. In spite of erection of “**NO PARKING**” sign boards vehicles of all categories are haphazardly parked on either side of the above roads. The situation is endangering the safety of citizens especially the school going children. If the situation is not arrested immediately **accidents** are bound to happen at any time.

In the light of the above, we request you to kindly order for erection of Steel Girders/Poles on either side of the above two roads for restricting the movement of heavy vehicles and also to reduce the speed of the vehicles of other kind.

We shall be obliged for this act of kindness Sir,

M.S.Anand

Balajee Vaidhyanathan
